Alessandro Maserati

Head of AI, Logol

Alessandro Maserati graduated with honors in Mathematics from the Scuola Normale Superiore of Pisa, he began his career at Boston Consulting Group before specializing in Artificial Intelligence. Since 2017, he has been with Logol, where he now serves as Director and Head of AI, driving the development of innovative technological solutions. A speaker at international events and an external lecturer at institutions such as Politecnico di Milano and SUPSI, he is also President of the Associazione Normalisti and a member of Mensa. Combining technical excellence and strategic vision, Alessandro Maserati is a key figure in Artificial Intelligence for both academia and industry.
